

ParkSEIS – Procedure To Install

The procedure to install a full version of ParkSEIS, use of which is protected by US copyright law, is described below:

1. Download the setup file ("PS-Setup.exe") and install the software.
2. On your first run of the software, you will see the registration window popping up as shown below (left). **Please copy the number (right click) and send it to contact@parkseismic.com.**
3. We will send you back a **1-week license** for your evaluation purpose. The license will come as "**Unlock Code**" and "**User Name**" as shown below (right).
